

BOT CHAIN NATIVE

PromptMint

Create. Discover. Monetize AI prompts.

An on-chain marketplace where AI creators can publish prompts and users can discover and purchase useful prompt assets.

The Problem

02

High-quality AI prompts are valuable, but discovery, ownership, and monetization remain fragmented.

- **Scattered discovery**

Useful prompts are spread across social posts, documents, communities, and private collections.

- **Limited creator monetization**

Prompt creators often lack a simple way to package and sell their work directly.

- **Weak provenance**

Buyers may have little visibility into who published a prompt or when it was listed.

- **Poor marketplace experience**

There is no simple shared layer for browsing, purchasing, and tracking prompt assets on-chain.

The Solution

03

PromptMint gives prompt creators and AI users a simple blockchain-backed marketplace.

Publish

Creators list prompts with descriptions, categories, pricing, and metadata.

Discover

Users browse and filter prompts based on their needs.

Purchase

Buyers pay through an on-chain transaction and unlock the purchased asset.

Verify

Listings, creators, purchases, and payment records remain verifiable on-chain.

Core Features

04

A lightweight marketplace experience for AI prompt creators and buyers.

Prompt listings

Publish prompts with title, category, description, price, and creator profile.

Marketplace discovery

Browse, search, and filter available prompt assets.

On-chain purchases

Pay creators through transparent blockchain transactions.

Creator profiles

Show published prompts, activity, and marketplace history.

Purchase library

Let users access and track prompts they have purchased.

Ownership records

Maintain verifiable listing and transaction records on-chain.

Who It Is For

PromptMint connects people who create reusable AI knowledge with people who need it.

Prompt Creators

Package and monetize useful prompts for coding, design, research, writing, and more.

AI Builders

Discover prompt assets that can accelerate products, agents, and workflows.

Developers & Creators

Buy reusable prompts instead of rebuilding common workflows from scratch.

AI Communities

Curate prompt collections and encourage creator participation within the ecosystem.

Why BOT Chain

06

PromptMint adds a creator-focused AI marketplace use case to the BOT Chain ecosystem.

- **AI-native utility**

The marketplace connects blockchain payments with the growing ecosystem of AI tools and creators.

- **Creator payments**

On-chain purchases create transparent payment records between buyers and prompt creators.

- **Verifiable provenance**

Creator, listing, and purchase activity can be recorded and independently verified.

- **Ecosystem growth**

PromptMint can attract AI creators, developers, and communities into practical BOT Chain usage.

Current Status & Roadmap

07

Focused on delivering and validating the core marketplace experience on BOT Chain Testnet.

01

MVP

Prompt listing, discovery, creator profiles, pricing, and purchase flow.

02

Testnet

Deploy marketplace contracts and test payments on BOT Chain Testnet.

03

Refine

Improve search, transaction handling, creator tools, and user experience.

04

Grow

Onboard prompt creators, AI builders, and ecosystem communities.

What We Want From BOT Chain

08

Co-marketing support can help PromptMint reach AI creators and builders across the ecosystem.

- 1 Showcase PromptMint across BOT Chain official social media channels.
- 2 Feature PromptMint on the BOT Chain website and ecosystem/project directory.
- 3 Connect PromptMint with AI builders, prompt creators, developers, and communities in the ecosystem.
- 4 Amplify PromptMint testnet launch, creator onboarding, product updates, and key milestones.
- 5 Collaborate on AI-focused campaigns, creator initiatives, and community activations that drive marketplace usage.

PromptMint

Turn useful prompts into discoverable digital assets.

A simple AI prompt marketplace connecting creators and users through transparent on-chain payments on BOT Chain.
